Kitchen Sinks

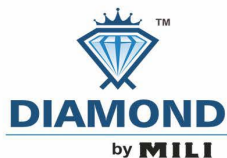

It is aptly called Diamond. For, like nature's masterpiece, a Diamond Sink too is all about finesse and perfection. An elegance so subtle, the class is unmistakable. Diamond Sinks are not for anybody and everybody. It takes a certain temperament to appreciate its enchanting subtleties. And once you have chosen Diamond, it is unlikely you will opt for anything else. Ever! Because a Diamond Sink - again like its glittering natural counterpart- has been crafted to retain its class and beauty for years and years. Technically, a Diamond Sink is the paradigm of perfection. Crafted from the highest grade 18/8 (Type AISI 304) stainless steel, it comes to your kitchen virtually abuse - ready. Which is to say, it is ready to perform under the toughest conditions. And superbly functional. It is a world class product, adapted to satisfy Indian inclinations. Which is why you will always find a size or model to suit your specific need. Diamond Sinks come in a range of sizes and combinations of single and double bowls and drainers... In short, there is always a Diamond Sink for every kitchen. And again, like Mother Nature's jewel, it is guaranteed to steal the thunder. The highlight of any kitchen. The showpiece. Diamonds they say, are a girls's best friend. Diamond Sinks, ditto!
